

TSS 50th Anniversary Drama

Mirai Train: To You Who Never Knew That Day

**A human drama from Hiroshima about the inheritance of memory,
told through a family story**

Produced jointly by Shinhiroshima Telecasting Co., Ltd. (TSS), a commercial television broadcaster based in Hiroshima, and BS Fuji, a nationwide satellite television network in Japan, this human drama was created to commemorate the 50th anniversary of TSS.

On August 6, 1945, Hiroshima became the first city in the world to be attacked with an atomic bomb. Centered on the theme of passing on memories to future generations, this drama explores how the experiences and lessons of that day can be inherited and preserved over time.

The story unfolds across three different eras: 1975, 2024, and 2025. In 1975, thirty years after the atomic bombing, Sachie Ogaki supports her family while running a small coffee shop in Hiroshima. Fifty years later, her granddaughter, Yuki Kuramochi, who works at a local television station, is assigned to produce a special program marking the 80th anniversary of the bombing. Through this project, she begins to confront the untold past that her grandmother never spoke about.

What do we choose to forget, and what can never be forgotten? What remained unsaid, and what was never asked? For generations with no direct memory of that day, the drama asks what they can learn, accept, and carry forward into the future. Through the memories passed down within a family, the story depicts the legacy of war, the bonds between people, and a heartfelt wish for peace.

The cast features acclaimed Japanese actors and actresses including Neru Nagahama, Yuki Inoue, Yumia Fujisaki, and Ryoko Kuninaka, whose performances bring depth and authenticity to this multigenerational story set in Hiroshima.

The drama was broadcast on TSS and BS Fuji in March 2025, and was subsequently streamed on the free online platform TVer as well as made available to viewers in Thailand. It was also aired by stations affiliated with the Fuji Television Network (FNN/FNS), one of Japan's major commercial television networks, enabling the story to reach audiences both across Japan and internationally.

Now, eighty years after the atomic bombing, this powerful drama invites viewers to reflect on the meaning of inheriting memory and the responsibility of passing it on, through the deeply moving story of a Hiroshima family.
